

STILL MISSING BUDDY

Buddy has gone missing from his new home in the Byslips Road area of Studham, on 4th April. He is a large boy with white half cheek, round chin, bib, chest and belly but tabby legs and large white paws. He doesn't have a collar. He is approx 9 years of age, chipped, neutered. He is friendly but due to the fact he is new to the area may be very wary. He is originally from Hemel so possibly may be trying to find his way home.

Can we please ask if you can check your gardens, sheds, garages etc. to see if he is locked in or around your area. If you do see him/find him **please soonest contact** either Cats Protection on 01442 249287 or 01582 873835 or 01442 239742

Your help is greatly appreciated
