

**BUDDY - STILL MISSING – 8<sup>th</sup> February, 2018**

Our boy Buddy is still missing. He went missing from his adopted home in the Byslips Road area of Studham, on 4<sup>th</sup> April, 2017. He is a large boy with white half cheek, white around the chin/bib/chest and belly. Tabby legs and very distinctive large white paws (*he doesn't have white on his back/back legs*). He is approx 9 years of age, chipped and neutered. He is originally from Hemel.

Can we please ask if you have seen him/know where he is if you can you urgently **contact 01442 249287/01442 239742** to let us know (*leave a message/contact no. and we will come back to you*). We are still very worried about him even tho it has been so long. Any news would be appreciated. If he is still living as a stray we will take him back.

Your help is greatly appreciated – if you are feeding him/or know someone who is, please contact us as we urgently want to know where he is and if he is ok/safe. *If he is now settled with someone we wouldn't take him away but just want to see and know he is safe.*
